ROBOT DANCE

The COE Humanoid Robots and Bio-Sensing (HuRoBs) UiTM and IEEE-RAS Malaysia Chapter is proud to organize the 2nd International Robot PRIDE Competition. This competition provides a platform to explore innovative ideas and design within the scope of Robotics, Sensors, Automation, Computation and Intelligent Systems. The competition focuses on fundamental principles and applications using engineering and information technology towards potential exploration into commercialization. Indeed **PRIDE** is a platform where inventor meets investor. PRIDE stands for: P (Performance), R (Reliability), D (Design), I (Innovation) and E (Exploratory).
